

Goals:

- Analyst A – *Business & Market*
- Analyst B – *Architecture & Data*
- Analyst C – *Operations & Back-Office*

Team : Thangakumar, Ragavi, Keerthana, Vinitha

Subject: Odoo Deep-Dive + Full-Feature Business Analysis — Kick-off

1 · Why we're doing this

Provide a developer-ready map of **Odoo** —its architecture, data model, full feature set and business value—so junior developers gain both **how** it works and **why** it matters.

2 · Definition of Done

All artefacts must be delivered within 3 hours of kick-off.

#	Deliverable	Format & Primary Owner	Acceptance Criteria
1	Odoo in 8 Slides Deck	All (merge work)	Slide 1 Exec summary & key findings Slide 2 Module landscape & data flows Slide 3 Business process map Slide 4 High-level architecture diagram Slide 5 Database / data-store highlights Slide 6 Extension & API model Slide 7 Deployment pipeline (SaaS / Cloud / On-prem) Slide 8 Design patterns & inspirations
2	Feature Business Scorecard	Analyst A	Spreadsheet listing all first-party features with columns: Module · Pain Solved · Value (1-5) · Adoption Effort (1-5) · Priority (= V ÷ E) · Notes/Links. Top-10 “quick wins” and Top-5 “big bets” flagged.
3	Annotated ERD / Schema Diagram	Analyst B	Diagram (PNG/PDF) of ±20 core entities/tables with call-outs for cross-module joins and upgrade-friendly design.
4	Sample Extension Skeleton + 1-Page “Dev Inspiration” Note	Analyst C	• Minimal, compilable/instalable extension module or plugin. • Markdown note capturing ≥ 5 design ideas worth emulating.

3 · Work Plan (180-Minute Time-box)

Phase	Minutes	Activity
Kick-off	0-15	Confirm deliverables, open shared drive, allocate roles.
Research & Capture	15-105	A: harvest & score features. B: draw architecture & schema. C: map processes, build extension skeleton, gather design patterns.
Draft Artefacts	105-140	Populate slides; finalise Scorecard; annotate diagram.
Merge & Polish	140-165	Assemble deck; cross-review for consistency; write Dev Inspiration note.
Ship	165-180	Export deck/diagram to PDF, zip extension, upload to shared folder, post one-sentence summary.
